3D sound

Optimized for your enjoyment.

Two amplifiers, one of the best digital-to-analog converters (DAC) on the market and our patented technology ensure a unique listening experience with unforgettable spatial sound.

Olive SOUND is made to deliver 360° sound.

High class design

Olive SOUND is a refreshing alternative to the horde of boxy, plasticky music players of the word. The Olive HD player is constructed with a fine-grade aluminum enclosure and covered with a beautiful glass touch screen.

The cover of the wood-based housing for the 10 loudspeakers is customizable in color, size and material.

Olive SOUND is unique.

Technology HD player

A brilliant 7" color touch-screen navigation,
storage for more than 10,000 albums in CD quality or 30,000 HD tracks,
built-in HD amplifier and a wireless dock to play music from your iPhone or
Android-based portable devices.

Olive SOUND supports HD music formats
that deliver 250x the resolution of CD music;
but even if you're playing MP3s or music streaming services,
it has one of the best analog output stages in the industry
and will enhance everything you play

Technology speaker

Omnidirectional 3D sound through
6x aluminum dome tweeter 4x bass woofers
in its wood-based housing.

Cable management and power supply integration.

Made in Germany.
